## Desarrollo económico

### Pobreza multidimensional

La pobreza multidimensional se define más allá del tema de los ingresos, y se relaciona con múltiples carencias, privaciones de derechos y capacidades que tiene la población y que afecta su calidad de vida y bienestar.

El índice de pobreza multidimensional (IPM) señala las privaciones que tiene la población en cinco dimensiones: educación; condiciones de niñez y juventud, salud, trabajo, acceso a servicios públicos y condiciones de vivienda y estas cinco dimensiones involucran 15 variable.
